

EXPERIENCED DOCTORS URGENTLY NEEDED FOR NORTHERN VANUATU

Churches of Christ Medical Santo urgently needs experienced volunteer doctors to support the provision of health services to the people of northern Vanuatu.

We need doctors who have sufficient experience to adapt to the limitations of practicing in a developing country, who will respect and work with the local culture and who are able to provide supervision to less experienced practitioners and to students. Experience in developing countries or rural and indigenous health settings would be an advantage.

Medical Santo health services are provided in northern Vanuatu through a GP clinic (including on call after hours for emergencies) located in Luganville on the island of Espiritu Santo, working alongside the staff at the Northern Provincial Hospital also in Luganville and through rural outreach clinics on neighbouring islands.

Churches of Christ Medical Santo provides basic accommodation in Luganville and insurance cover for travel and the duration of the assignment as well as Vanuatu registration fees. Volunteers are responsible for the cost of their travel, living expenses while on assignment and any documentation required. There is a \$300AU fee which covers the cost of all processing including Vanuatu registration.

Urgent placements are needed from December onwards into 2017. A minimum of one month is desirable.

The registration process takes 3 months so please take this into consideration when planning dates for taking up this assignment.

If you are able to take up a volunteer assignment with us, please contact Libby Scheinpflug on 0457 204 669 or email volunteers@medicalsanto.com.
