

## **IMAGINE WORKING FOR THE LOVE OF IT**

### **Volunteer doctors, nurses and health professionals** **urgently needed**

Are you, or someone you know, looking for the chance to change lives in a close-knit island community?

Churches of Christ Medical Santo urgently needs volunteer doctors, nurses and health professionals to help us deliver our clinical, emergency medical services and health outreaches in Northern Vanuatu.

Medical Santo is a Vanuatu registered charity operating as a not-for-profit medical aid organisation. Established in 2012, Medical Santo provides primary health services to the Northern Region of Vanuatu.

Based in the town of Luganville on the island of Santo in Vanuatu, we aim to provide high quality medical services to the local ni-Vanuatu community, expatriate locals and tourists through a Gospel-centred Christian ministry.

#### **Who you will be helping**

There are approximately 15,500 people living in Luganville, (also known locally as "Santo"), with a total of around 46,000 people on the island of Espiritu Santo. The current population comprises a majority of ni-Vanuatu but also has a small population of Chinese and European descendants and a few expatriate business people and retirees.

We are looking for volunteer professionals to help operate our specialist clinics, including dental, optical, maternal, and child health services. As many of the local community find travel for services difficult, we also operate rural outreach services across Espiritu Santo.

**Can you help change lives in Northern Vanuatu?**

**We urgently need volunteer doctors, nurses and health professionals.**
